The Role of Data Analytics in Economics

By analyzing historical data and identifying patterns, economists can develop predictive models for various economic factors, including inflation, unemployment, GDP growth, and market dynamics. These models enable better anticipation of potential economic shifts, facilitating proactive policy and strategy adjustments. Economists typically use data analytics to establish causality. Causality is a cause-and-effect relationship and analytics can determine the strength of a causal relationship. Economics is used to try to identify the levers that can produce certain outcomes.

Guest Speaker Dr. Jayram Gaikwad expressing his thoughts

Students present for Interactive Session

National Conference on Recent Advancements in Science and Technology

A fundamental objective of a national conference is to provide an opportunity for representatives of all sides to discuss, plan, and reach a maximum level of consensus on a country's political future, hence addressing potential and actual political crises. In facilitating learning, sharing and inspiration, conferences give people the ability to spark new ideas – ideas that they can take back to their colleagues and their bosses and begin to properly realise.

Felicitation of Invited Talk Dr. D.D. Pawar in NCRAST 2024

The Need of Revitalization of Parliamentary Democracy in India

The Department of Political Science organized a seminar on “The Need of Revitalization of Parliamentary Democracy in India” on 22 March, 2024 at 02:00 PM in E-Classroom of main building. The resource person invited for the seminar was Dr. Prakash Pantavane, Head Department of Political Science J.D. Patil Sangludkar Mahavidyalaya Daryapur District Amravati. Total 74 participants attended the seminar. That representative democracy and parliamentary institutions have endured in India for five decades is a great tribute to their strength and resilience. There has, however been in recent years quite some thinking and debate about decline of Parliament, devaluation of parliamentary authority, falling standards of debate, deterioration in the conduct and quality of Members, poor levels of participation and the like.

Speaker Dr. Prakash Pantavane Head, Department of Political Science,
J.D. Patil Sangludkar Mahavidyalaya, Daryapur

Question and Answers Session for Students

Guest Lecture on Gynecological Disorder

Help people recognize the early signs and symptoms of cancer, thus enabling them to seek treatment at early stage .Early detection are for the timely management of these disorders. Regular Gynaecological Check-ups and open communication with healthcare providers are essential for maintaining reproductive health.Gynaecological Disorders awareness gave students confidence to speak to a doctor if something doesn't feel normal. Gynaecological Disorders awareness can empower individuals to recognize symptoms, seek timely screenings, and adopt healthy lifestyle choices.

Career Counseling Session

Career counseling is the process of guiding and helping an individual in making their career plans by understanding their requirements and suggesting career options based on their interest and scope of the field. Developing a sense of humors can be very helpful in doing so. Telling some friendly jokes to make students comfortable or sharing some stories about their personal experiences can be a helpful practice. When a student gets comfortable with the counselor, they may find it easier to open up to them.

Expert Prof. M. H. Monga, Director-HR, VBMV, Amravati Addressing Students
